

# Accessible & responsive web MVP in 6 months

A US-based educational technology SaaS provider sought to **revitalize its core product**, an educational platform, to maintain its competitive edge...

...they asked Netguru to partner with them to improve the UI/UX of their platform and make it accessible and responsive for new users.

With teams spanning  
**three time zones,**  
Netguru and the  
client coordinated  
with continuous  
communication  
and sprint iterations  
to meet the  
requirements.

# Results?

We developed  
an MVP within  
6 months  
and within  
budget.

The fast delivery  
allowed our client  
to secure a critical  
state contract.

“Working with Netguru meant zero surprises or last-minute adjustments on the timeline.”
