

Native mobile app for a payment card services provider

You need:

- ✔ a team that takes ownership
- ✔ a ready-to-pivot mindset
- ✔ sharp budget management
- ✔ zero talent rotation

This is exactly what happened in our project for a leading payment card services provider.

N

And it was **not**
a walk in the
park.

We navigated through:

- ✓ A project with 100 stakeholders
- ✓ Spread across US, UK, Singapore & Poland
- ✓ Two backend revamps
- ✓ The highest security & usability standards
- ✓ Multiple programming environments

Results?

An innovative app that offers quick, secure, **phone number-based payments**, enhancing the e-commerce experience.

N

Highlights

- ✔ Over 50,000 downloads on Google Play as of October 2023
- ✔ Built from scratch
- ✔ Aligned with all the requirements
- ✔ Meeting accessibility standards
- ✔ NPS of 9
