

Cross-platform development for Merck

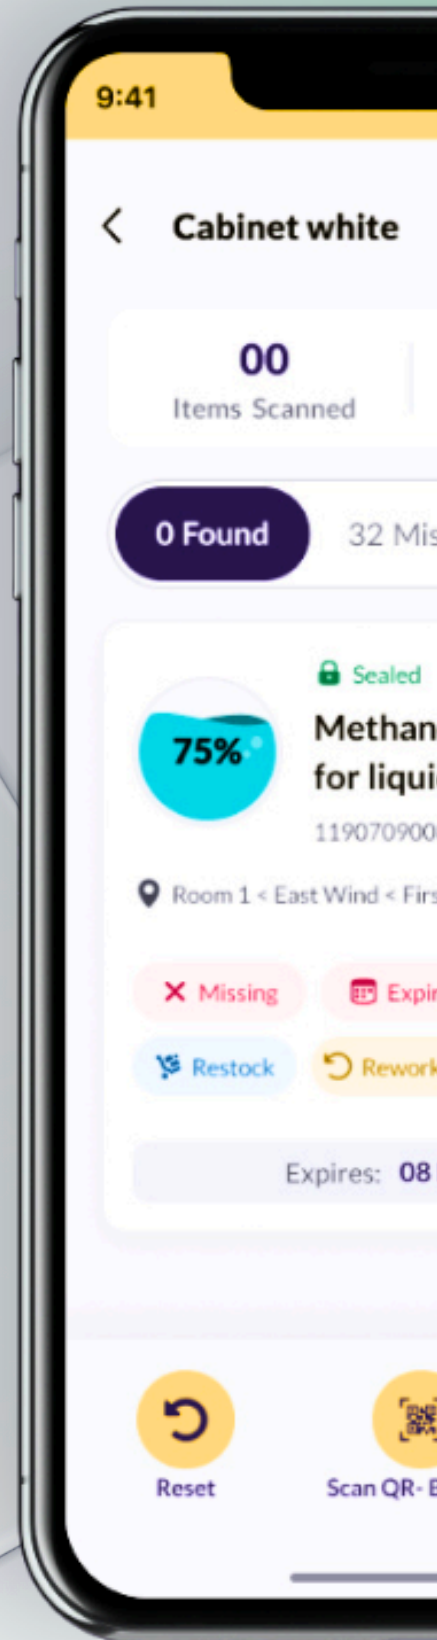

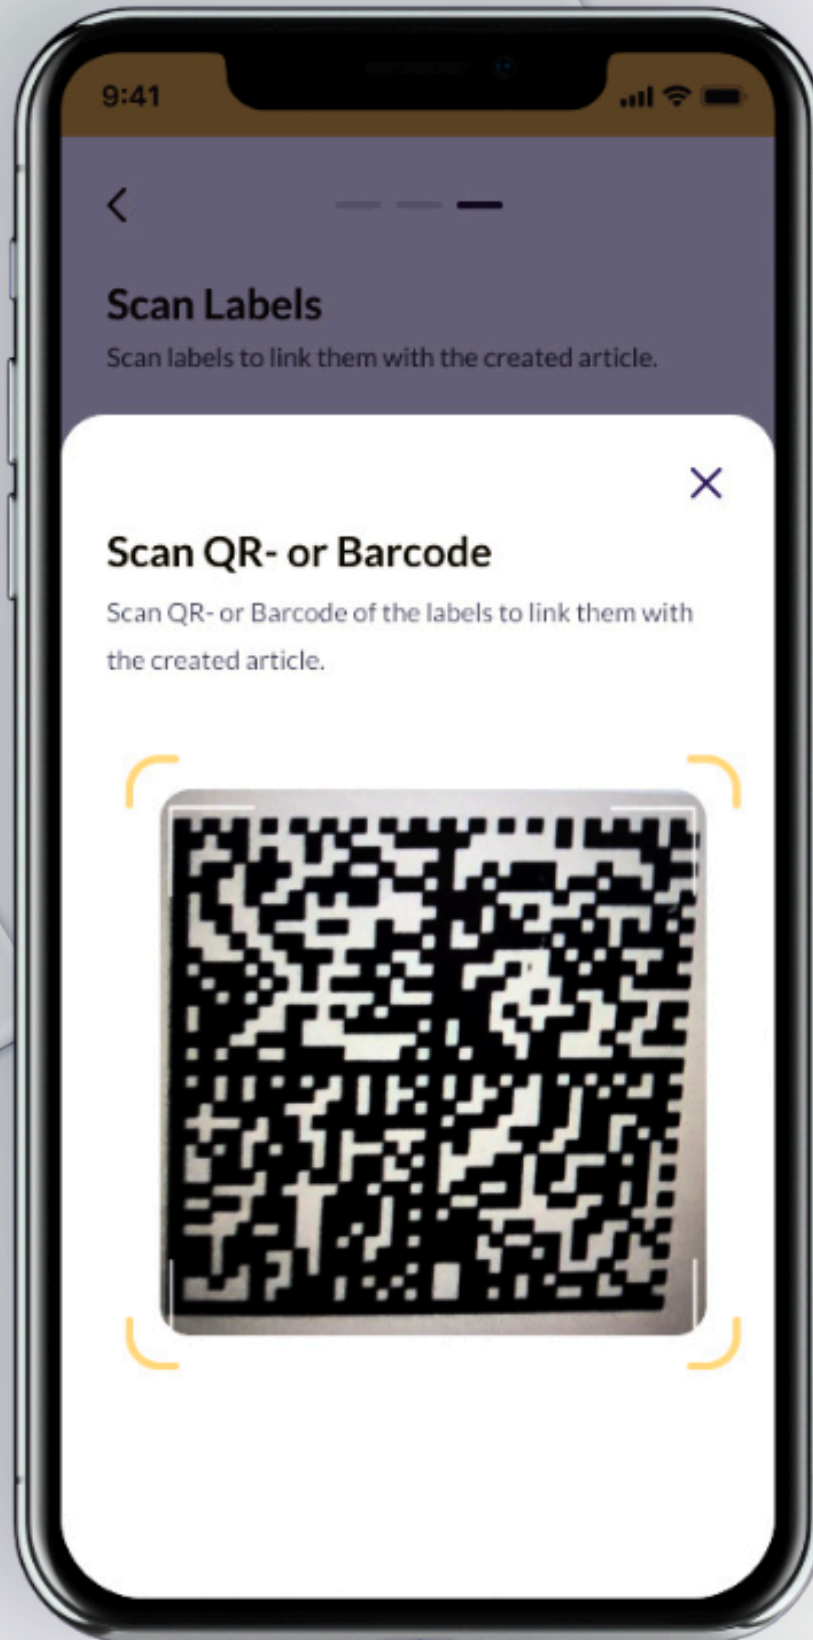

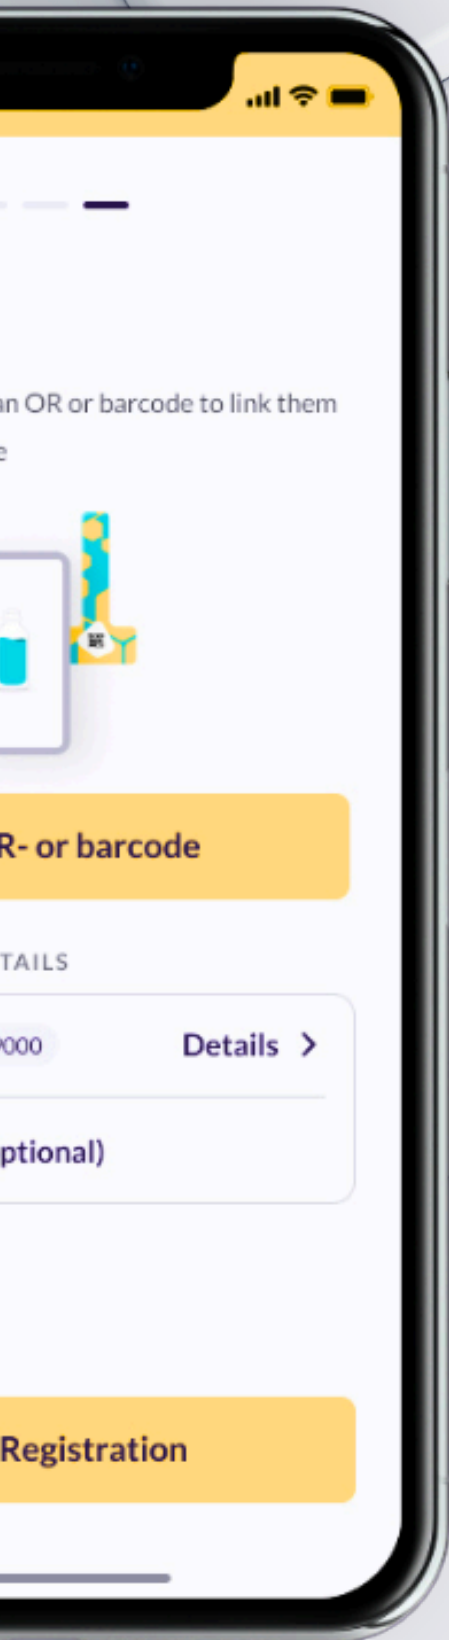

Merck wanted to improve productivity in the lab with **LANEXO® Inventory Manager** – a digital laboratory informatics solution that sped up the process by **97%**.

Netguru collaborated with Merck to enhance their Android app and launch an iOS version, ensuring a seamless experience across both platforms...

...using Flutter to facilitate **speedy delivery**, enabling market-driven changes without version discrepancies.

Results?

- ✓ Rapid cross-platform delivery
- ✓ Seamless app performance
- ✓ Addition of new functionalities
- ✓ Refreshed designs
- ✓ Thorough quality assurance

“Netguru tackled all challenges one by one and delivered a complex app for two platforms in one fell swoop.”

Dr. Sarada Devi Ramachandran

Director, Head of Product Management,
Digital Chemistry at Merck Life Science KGaA
